► The citizens of Zagreb are crazy about room escape. It is a game in which players are locked in a room, and by solving different puzzles have to find a way out in 60 minutes.

Considering the size of the city, Zagreb's offer of room escape venues places it in the very top – the total of 10 rooms are on offer in four locations.

One of them is quite special – the story is based on rich Zagreb's history. It is located in Krvavi most (which translates to Bloody Bridge), a small street connecting Tkalciceva and Radićeva. Escape Room Enigmarijium tells a story of a mysterious case of a Zagreb witch.

Escape room is a game for two to six players (sometimes a

maximum of five), who have 60 minutes to discover all hidden objects and keys, decipher codes, solve puzzles and riddles, think logically, and work together on solving the problem and leaving the room.

Enigmarijium takes visitors to Zagreb's dark past, to the time when witches were persecuted and burnt. Discover a true story of Barica Cindek, who inspired Marija Jurić Zagorka to write her famous novel Grička vještica. Barica was a beautiful and successful woman, accused of being a witch. She is about to be burnt alive, and her destiny is in your hands! Can you find a passage to the 18th century and save her? Hopefully you can, but in any case – you are up for an unforgettable experience!
